Hi Sue,

I hope you are well, it's been a while since we spoke. I'm currently rejoicing that the Pirates have broken the 20 year streak, and will not have a losing season!

Attached for your review are my attempts at responses to NRC's comments through OMB on the Subpart W proposal. I didn't really give much of an answer for number one, (b) (5) - Deliberative process privilege [REDACTED]. I completed these first because I thought you might like to see them. I'm still working on OMB's comments on the preamble and rule language. Additionally, we almost have in place our contractor, who will be addressing OMB comments on the Background Document and Economic Impact Analysis.

I'm working from home today at (b) (6) - [REDACTED] if you have any questions or comments.  
P [REDACTED] I [REDACTED]

Reid
